1. (Currently Amended) A serial data conversion apparatus, comprising:
a video signal packet conversion unit ~~for converting~~ configured to convert
a characteristic signal of a video signal into a video signal characteristic packet
and to simultaneously converting-convert a video signal into a video signal packet
by the characteristic signal of a video signal, horizontal/ vertical synchronization
signals, and a video clock signal;

an audio signal packet conversion unit ~~for converting~~ configured to
convert a characteristic signal of an audio signal into an audio signal
characteristic packet and to simultaneously converting-convert an audio signal
into an audio signal packet by the characteristic signal of an audio signal, left/
right control signals, and an audio clock signal; and

a control signal packet conversion unit ~~for converting~~ configured to
convert a control signal into a control signal packet by an informing signal which
informs a generation of a control signal,

wherein the video signal packet conversion unit comprises:

a video signal characteristic recognizing unit configured to recognize
video signal characteristics from an input characteristic signal of a video signal
and to generate a video signal characteristic packet;

a video signal control unit configured to directly receive the video signal
characteristics from the video signal characteristic recognizing unit and to
generate a header and a tail of a video signal based on the received video signal
characteristics, input horizontal/ vertical synchronization signals and a video
clock signal and to simultaneously an output of a video signal;

a video signal memory unit configured to directly receive the video signal
output by the video signal control unit and to store video signal; and

a multiplexer directly connected to the video signal control unit and the
video signal memory unit and configured to select a header and a tail output by
the video signal control unit and a video signal output by the video signal memory
unit to thus generating a video signal packet.
